Nematology Digital Learning Platform:

YouTube channel

www.imanema.ugent.be

Want **access to educational materials** in nematology developed for students and lecturers?

Are you looking for **project partners, collaborators or experts** to join your research project in nematology?

Want **more information** about workshops, conferences and other nematological events taking place on the continent and beyond?

Want to **share knowledge and innovative technologies** in nematology and crop protection and learn from the best practices of others?
